Electronic Resources Services User Guide

Tips 3 How to Use Article Linker

What is Article Linker?

Article Linker is a service that navigates you from the search results of a secondary literature database (searching articles and papers) to the full texts. If full text is not available, you can refer to the links to other databases including DOORS and Google Scholar.

Where can I use it?

- On DOGS Plus, clicking the hyperlinked URL in the search result page will redirect you to the corresponding page on Article Linker.
- There should be an icon ArticleLinker on the search result page on a secondary literature database linked with the university. Clicking this icon will redirect you to the corresponding page on Article Linker.

*A different icon or phrase may be displayed on some databases.

I .Article Linker Display

<If the item is available online>

You can view the online contents.

Search Criteria

Citation information of the electronic resource is displayed.

\star How to save the search results

Email

Select a citation style, enter your name, email address and subject and click the "Send Email" button.

Export

Select an output style such as RefWorks and click the "Export" button. If you select Plain Text or HTML, choose a citation style from the pull-down menu.

Article Available Online

Clicking the link to the full text will redirect you to the corresponding page for the electronic resource.

C Search Doshisha University Libraries

If the university has the item in its collection, its holding information is displayed.

Click Location to view the search results on the university' s OPAC (DOORS).

•	,	
braries		
Volume	Call No.	Status
	146.1 W9282	
	braries Volume	Volume Call No. 146.1 W9282

Click "Search OPAC by ISSN/ISBN or the Title" to search again within the university's collection.

D Search Full Text

(A) You can search free full text via online.

(B) You can search other resources.

E Request to Photocopy or Borrow Material

*at your own expenses

Click "Photocopy/Interlibrary Loan Request" to open the request form.
